

IN THE CLAIMS:

Please amend claims 1, 2 and 10 as follows (a marked-up version of the amended claims is attached to this Amendment):

1. (Amended) A method of fabricating an air-bag, the method comprising the following steps:

forming a bag from at least one layer of fabric;

introducing a sealant into an interior of the bag and blowing the sealant into contact with the interior of the bag with a propellant gas so that the sealant material forms a sealant layer on the interior of the bag.

2. (Amended) A method according to Claim 1, wherein the sealant is in the form of a parison of a synthetic polymer material carried on a mandrel, and said blowing step comprises injecting said propellant gas through the mandrel.

10. (Twice Amended) An air-bag fabricated by a method according to Claim 1.
